

Lord help me to be Jesus in this marriage to make it work. Help me to lay down my will and allow my spouse to make mistakes without ever using it against him.

Help me to listen like Jesus would listen. Help me to confess my errors and errors of the past. Help me to walk away when things get too heated without using threats of doing something stupid, but with a simple confession to cool things off.

Help me to always run to you to show me where I was wrong and when my spouse was right. Help me always to humbly apologize when I make a mistake in Jesus name!
