

Father possess us with your love. Give us an outpouring of your love, joy, grace, virtues and refreshment for we are poor and in need of you.

I pray that my spouse and I would rest in you and love you with all our heart, mind, and soul and then to love our neighbor as ourselves. We want to see the glory of the Lord cover the earth as the waters cover the sea.

I pray that you would draw us deeper Jesus. I pray that we would lay down our lives, giving and trusting everything to you so that you can trust us with your choicest gifts and with souls.

When you decide to lift us up may there be a revival and whole nations coming into the kingdom, falling on their faces.

Change us oh God, with one glance of your eyes. Capture our hearts with your love so that we were not afraid to be completely abandoned in your arms in Jesus name!
