

Jesus, through suffering and humility make us more like you

Lord help us not to fear suffering and what that might do to our flesh. Help me to carry whatever cross you allow with grace and great tenderness knowing that a soul is in need of help.

I pray Father we wouldn't fear being lifted to humiliation, but see the great merit and reward that can be obtained. Oh God, give us the grace to be reminded the more we suffer the more we share in your glory.

May we not be the brides that abandon you in your last hour of need or let go of the cross that you indeed carry with us. Oh, Jesus give us the grace not to murmur or complain in our suffering, but continuously offering up whatever you allow with joy for the salvation of souls.
