

Hello brothers and sisters and YouTube family hope you guys are being blessed

Today woke up thanking the Lord for his grace last night allowing me to finish the video and sleep so well in his grace...his arms :) so soooo good but then during prayer my body was feeling the pain of tiredness again and I know this is all a suffering for the Lord. As we did the rosary i was reminded about the rhema Jesus gave me yesterday "That ask Blessed Mother she knows the needs of the people" It was because of the ideas I was getting concerning the community. So as we were saying the rosary I was asking her what are the needs of the people of Ghana. I had initially had this idea yesterday of having the women do rosaries made of Ankara fabric and giving away the work for free for donations. For the Lord has taught us freely we have received so freely give so everything would be free there but was wondering how Lord would they get finances maybe to teach them also about Gods providence but I didn't get confirming readings on that then the idea kept coming up about these white buses or vehicles that seem a large amount of people with red letters that said "From Jesus with Love" these trucks would be used to pick up children or anyone who wanted to come to church or the community but were unable and also anyone who was needing a ride to their homes. We would go the regular bus routes but it would be free we wouldn't charge. We would anoint the bus and pray over it every morning, playing worship music over them as they traveled. and I was getting "the children" the children because I was having all these thoughts of things we could do or how to help but I feel blessed Mother is reminding me to keep the children the center. That as she sends me as her representative its the children who are in need and when we meet the children needs we will also meet the needs of the parents, eventually meeting the needs of the community and the people of Ghana

Blessed Mother please help me, how can one meet the needs of the children what are their needs?

My beloved daughter I am indeed sending you out as my representative as my daughter to the mission fields of this world and indeed you will be a sheep among wolves so its very important that all the work you do beloved one ends and began with prayer must mush prayer as the reading I gave you from Mother Teresa book pray the work, its as by yo praying in the work now that the ground will be ready when you arrive there . So pray much for the children I will encrust to you, pray much for the workers and labors that will come help , pray much for the community and land that will be entrusted to your care Now concerning the children my little one it will be by your love, your compassion and patience that will draw them. That is what they need the children are needing love and someone they can trust in and someone who can trust them. Children are such special gifts to the world, oh how they have such great faith and hope in so many things but it is the lies of the enemy and adults who heart have been harden by the turmoil of this world that causes many churn to lose their hope and eventually their faith in goodness and in God. So I am sending you to teach these little one by example it is nay your love that will nourish these little ones and cause them to rise to great heights in the Lord. First start with those who no one to attend to their children, the forest of the poor many of these children are bon in a class system that gives them no hope for a future besides

what their parents have planned or to the limit that their parents reached which is not far. So be a helping hand to Mother and Fathers who have no one to care for their little ones, be a help to the children who cannot afford to go to school so must be with their parents at work or wander about in the streets until their parents come home. First teach them; in love and meet their need of clothing, food and education for free beloved for indeed as you have freely received I want you to give freely from the abundance of your heart give freely of your time, of resources of your love and provision. Don't worry about where funds will come from as you have witnessed and come to trust God as you providential Father he will supply all your needs and the needs to this community also my little daughter don't fear the roars of satan there will be many you are going and stepping into a heavy battle field but my dear one you have been trained very well and are very well equipped for the onslaught that will come to oppose remember be patience, pray, hope and have full confidence in the Lord that what he has started he will complete this is his word, our work together. So we do desire for you to share these things now many will be drawn to this mission, many from all over will come help build, some will stay and others will come and go but all those we bring there will be from our hand to help, teach, equip you and and continue to grow you in humility as well. Do not fear, my little one fear will be your biggest obstacle as it always has. When you are unsure about things or discernment come to me my little daughter and I will make the path straight for you just don't run off on your own beloved that is one of the enemies greatest assignments as I mentioned he will become more subtle in his traps he set for you so don't move ahead of God. Continue to wait, patiently and go with the inspirations given to you. Write all these things down for a later time they will be words of encouragement to you of what I have spoken and will cause you not to give into discouragement. I am with you in all of these things, all of heaven stand with you in prayer and excitement.

That was the end of Blessed Mothers Message
