

Hello Brothers and Sisters and YouTube Family hope you guys are being blessed yes, the channel name has officially and permanently changed to "From Jesus with Love" because it's no longer my channel but Jesus channel. However, it's still Mother Mary Elisha here with you

So, this morning I stayed before the Lord in worship, and he began to play the song "Thy will" Hillary Scott by and "I surrender" by Hillsong. I thought uh oh those two songs means so much to me and is a calling for me to lay something down that you asking of me to surrender. Something I am holding on to, or expectations and plans. I was a bit confused thinking maybe it's about the expectation of promise I felt he gave me concerning Late July but, I have told him that I am willing to lay that down. so, I asked him using in bible promises (which is what I use as a tool of discerning his will) I got the subject "help in troubles" with scriptures and when I get that reading guys and I am asking the Lord a question that means no that's not it, but I will help you.

Which was kind of a relief guys as I told the Lord forgive me. I then kept thinking what else could it be as I felt him began to speak to me about really surrendering how things will happen and just follow him. So, I began to write as I came before him saying
, My beloved I talk to much Lord do you have anything to say?

Jesus began,

"My sweet little one yes dear you have the right thinking. I saw how when you first got up today the business side of this organization was on your mind. As you looked up info on chapters and affiliates. I could see the worry and the anxiousness over taking your heart as you were trying to figure out how to do this, who would help and so much more beloved one we are in this together. We are doing this together and you have the king of kings, your savior and your spouse leading you. Who knows all things, has planned all things, and has already put many things in place? So why go at it as the world does when you have me? I am your counselor dear one, I am your CEO and COO of this community with Holy Spirit leading the way in marketing."

Me: I began smile, really Lord I used to always say that all the time to others

Jesus continued,

"Yes, my dear one, you were right yet again to perceive that too many ministries have neglected me and gone the ways of the world, been established and founded by the ways of the world and not solely by my spirit. Look at Mother Teresa for example when I called her to leave her convent after hearing the call from a beggar on the street "who thirst". She didn't take a second through to it she immediately went to her superior's waiting for their approval and left when she got it.

You have the approval of your superiors dear one and you have me right next to you beloved. So now come every morning listening intently for instructions. I will instruct on what needs to be done, how it needs to be done and where to begin. I have already giving you the first step as you share this vision and seek donations to fund the community, I will do the rest. Don't make it complicated my little one. The way I do things is so much different than what has been taught and how the world does things. It's important that you don't move ahead of me beloved one.

So, surrender you plans of tomorrow and expectations to me. Let's walk together moment by moment and within the instructions of each day. I will use you as an example to many beloved as to how I am not only reforming my church but, reforming the way ministry is done.

My dear ones, there are many of you who have heard my call but are hesitant. Fear has gripped you as well as you try to make sense of what I am asking, or you are trying to set up your own circumstances to make it happen. I'm telling you now my beloved ones that puts obstacles in our way and hinders the move of my spirit and the destiny that I have for you. This generation will be a generation of great faith but, that comes with great trust in me. Unconditional trust in me and simple childlike obedience and faith. I have called my people to walk by faith and not by sight. So why are you concerned with the amount of funds you now have in your account? why are concerned with the lack of transportation you have? why are you concerned with the job that you have made a commitment too? Why are you concerned with the family members that you have to take care of? Why are you concerned with the lack of support you have from those around you? Why are you concerned with any of these thing when I ask you to leave everything and come follow me?

The only difference between you and my apostles is that they heard the voice of their shepherd, the heard the words of eternal life and were cut to their heart, pierced to their heart with conviction. They knew I had all that they ever desired so they left everything to follow me immediately. Trusting that I was God and if I called, I had already made arrangement for the loose ends in their lives. Will you trust me my beloved ones? That I have made arrangements for all of your concerns truly I have.

That is how your faith grows when you take risk. The greater the risk, the greater the wisdom learned, the greater faith is grown and the greater trust you have in me. The more you're willing to give of yourself the more of me you will get. So, take the risk my beloved one, you will see how I will provide exceptionally and in perfect time. Take the risk and see how I arrange everything in such a wonderful fashion. Take the risk and see how as you take care of my business; I indeed take care of everything. So, take the risk, surrender to my will, my way, my timing, as we take a step each day towards the calling and destiny, I have for you. I give you my blessing now to walk and live by faith not by sight"

Lord I would love to share the many times you had me take risk and you came through in the most amazing ways

Jesus: *share with them my beloved*

Wow what a wonderful message thank you Jesus. The Lord is so right guys after getting this call for the mission and the instructions. I began to try to set everything up immediately when he simply told me to share and ask for donations. Do you see how my mind still thinks like the world? Coming from a business background you would think naturally you would have to get your ducks in a row. Have the name, the organization registered, tax id etc., website before you start moving forward and fund raising. However, the Lord ways are not our ways for sure. As he has truly done it his way by giving me the vision and simply telling me to ask for help. This message was given to me a week ago and would you know the new sister in the community has a background in that and now the Lord has given me the green light to move ahead with that aspect of it. Because we have an expert here who can help. So, his timing and his ways are always perfect!

So, I would love to share with you guys about 4 instances in my walk of faith where I took risk, and the Lord came through in and just awed me.

First lesson was simply obedience. This was my first and only event where I would be part of the speakers. The event was called "Great is the Accompany of Women" The Lord gave me the name and instructions to do this even in order to prepare his daughters who will preach the gospel and to also know the tactics of the enemy against us. Of course, I was nervous doing this because He spoke to me then had to put this even together in two weeks because he wanted it by the end of the month. So, I got a couple of girlfriends together to help. However, since was last minute one felt uncomfortable and dropped out 2 days before the event. The other became more uncertain and decided she didn't want to speak anymore but would attend. as she felt it was enough time to promote, it wasn't enough time to plan the event, how many people would be there, and I didn't care I just knew the Lord told me to do it at the end of the month. So, I told myself if only 1 person shows up than that's who it's for or if no one shows up I was obedient to the Lord. Sure, enough more than I expected showed up and it was a success because I was obedient.

Second lesson trusting God with provision. I had just lost job for about 5 months now on had no more funds left for unemployment and two weeks until rent was due. Everyone kept asking what I was going to do next, and I didn't know because the Lord hadn't told me besides that. When I had lost my job, it was his doing so I could know him more and secondly, he wanted me to work for him now. My rent was due, bills etc. and I didn't know where I would get the provision from as he continued to tell me to trust him. Then towards the end of the last week of with rent being due and no job. an old mail I had overlooked fell at my feet it was from my former job stating I had a 401 K. I decided to call them to see if I had anything because guys, I have never been financially savvy to save up on something like that, but I guess holy spirit did it through me without me even realizing it. You know when you first get a job and they have you do all that paperwork and with taxes have you check boxes if you want a percentage to 401 K? I guess I did that because they told me I had over 10K in my account. I was dumfounded and in awe at the Lords amazing provision. Of course, he had me give it all away lol

Third lesson was obedience, faith and humility

So, two of my sisters in Christ were getting promptings from the Lord to do a worship set in a park for our small group. However, the Lord hadn't spoken to me about it yet for the go ahead. When he finally did, we all were excited and posted it on Facebook called "Praise and Prayer in the Park". It was a call to intercession for our nation and city as well as worship. So, the Lord gave the idea to do it at the end of the month and every week we would choose a day to fast together for the event. I posted this inviting maybe the most 40 people thinking at least 20 would show up. I didn't advertise or anything just simply created the event on Facebook. Would you know by the second week, we had 3,500 people click attendance and even a local Christian radio station reaching out to be a part of the event. We were all blown away. However, a mega church reached out to us and we found out they do the same type of event monthly and on that day. We didn't have a park permit but they did so we had to hand over the entire event to them the week before. I knew it was a test for our group to see if we wanted glory or were willing to see that all the work was the Lords and matters not who gets the credit. I learned that truly Holy Spirit is and will be your marketing director if you rely solely on him to move. No need of advertisement or flyers

Fourth Lesson trusting him with your loved ones

So, when the Lord called me to the prayer community in Taos, I was given a month notice which I didn't respond to immediately and paid for it heavily. As some of you know if you listen to my testimony video. However, when I got that he wanted me to walk in immediate obedience I had only 2 days to let my sister know. Whose kids I had been watching and babysitting for 2 years while she and her boyfriend went to work. Many the enemy pounded me with condemnation and so did my family. Some said I was selfish for just up and leaving with no notice and didn't consider how it would affect my sister. However, I had to love Jesus more than I loved my sister, and my nieces. As I left, I let go trusted their schedules, jobs and babies into the arms of the Lord. Trusting that if he called me, he was very well aware of the reliance my family had on me and had made provision. Sure, enough they were fine, I believe one of them had to get a new job and new schedule to watch the kids, but it all worked out.

So, trust the Lord with everything guys. Trust him that he will provide for what he is asking you to do, Trust that he will take care of your family, trust him to let go of your job, that relationship or that direction you are going in because he has something so much better for you. Surrender, take risk and see your faith soar as your life becomes a testimony for others to follow!

I want to share a testimony with you guys to show how his timing is indeed perfect. This message was given to me last May and just as he mentioned I woke up trying to figure out the business side of this mission and he told me to stop because He had it all figured out already. I was trying to discern if I had to create my own non-profit or how to affiliate myself with Heartdwellers properly on paper. About 4 months ago we had an issue with our non-profit status and in return were given religious order status instead. Guys now Heartdwellers is officially a church and I am being sent out as missionary for the church so there is no need to do all what I was trying to do in my own wisdom when the Lord already knew and had it worked out just as he said. Can I say #hushjesushush!

Thank you for all who have been donating! We appreciate the seed you have sown into this mission. I am excited to announce the website will go live Saturday. That is also the first Saturday of the month which is Our lady Saturday, Blessed Mother. So, she continues to be behind all of this. We also will be launching a Go fund me campaign to raise more donation. Please share with others and keep posted on the launch date. Just a testimony about the website how God is so faithful and how amazing Holy Spirit is. When the Lord told me to do make a new website I was dumbfounded as how to do that and thought I would then ask you guys for help. Willing to pay someone to do the website for me however, Holy Spirit prompted by saying I am right here let me help you and do it through you. I thought no way I have no idea how to build a website. I had a blog before and for those who followed it was a very simple blog. This website has been weeks in the making and many, many, many late night staying up as the Holy Spirit has helped me to put this together. I rarely toot my own horn because there is nothing to toot, but I am going to toot Holy Spirit's horn because the website looks amazing, and I am in awe at what God can do when you ask him to do it through you! #hushholyspirthush

So, I say that to encourage you all to stop looking at your ability or inability and respond to what the Lord is asking you to do. He will equip you, anoint you and give you grace for whatever He ask of you it's your job to say "yes" to his will and Jesus will do the rest.

Another thing I do want to mention is concerning our Rumble channel. Thanks for those who have responded and followed us there. There are 25 of us, but hey that is start. For those who are finding it difficult to create and account or find us. I just wanted to mentioned you don't have

to have an account with rumble to watch the videos, but if you want to subscribe you do. However, you can just google Rumble Heartdwellers Ghana and the link to my videos will pop up and take you to the channel so you can listen to the messages.

Lastly concerning donations for those who don't have a pay pal account the link I provided in the description gives you an option to pay with debit card and not have to sign up for an account. If you want to send a check Mother Clare has asked you send it to the PO Box 1113 Taos, NM instead of the address. Will have that changed and available below in the description. Love you guys and thank you so much for your prayers. I need them and the team needs them. God bless!
